

SolarRoofs.com "Skyline3" 10-01 (10 s/f) Collector Configurations

Standard collectors feed / return at one end which can be Left or Right, side by side both feed / return from the Center.

Our "Skyline" 10-01 collectors are also available in flow through configurations as well as horizontal and vertical drain-back configurations upon request only. Standard collector configurations are shown below.

Optional Accessories such as mounting rails or tilt kits are also available in the Shopping Cart. You may use the corresponding number (see below) to either search for the proper part in the shopping cart or to ensure you have the correct part number before adding the part to the cart (prices are shown in the shopping cart).
