**Solar Water Heaters**

5840 Gibbons Drive, Carmichael, CA 95608

Phone: (916) 481-7200 Fax: 916-481-7203

The diagram below shows 12, 40" x 12' collectors, total 480 s/f  
By changing the header tube, almost any number of collectors can be accommodated  
The collector connecting tubes are ½" nominal and can connect to any size header, normally 1"  
A 1 ½" copper tube feeding into a central tee will handle 40 gpm into 1' tube at 20 gpm
